The CCA will select the Track Team from the pool of riders who have met the time standards listed below. The final team selection will be at the discretion of the National coach. Upon exhausting the Selection Criteria listed below, the National Team Coach will fill the remaining Team spots based on items mentioned in clause 11.1 in the [Track Selection Policy](#) that is posted on the CCA website (Track: National Team Program).

Pre-Worlds Training Camp: All athletes who have been selected to the team are encouraged to participate in the CCA-mandated pre-championship preparation camp July 16-31 in Trexlertown, Pennsylvania (dates and location may change). The goal of this camp will be to give riders sufficient time to prepare properly for the Junior Worlds in Italy, and to spend time with the group that will make the National Team aiming for the next Olympics.

Once final selections have been made, athletes will need to review their preparation for the months of July and August leading in to Worlds with the National Track Coach. For any World Championship, all final preparation programs are mandatory requirements for those selected athletes. Failure to commit to the final preparation program could result in an athlete being replaced for the event they have been selected to.

Anticipated Costs: All athletes selected to the 2010 Junior Track World Championships will be asked to contribute financially towards their participation in the project. The purpose for this is to enable the CCA to run a full development program with the maximum number of athletes across all disciplines and to give our Junior athletes a world-level experience as early as possible in their career. Athletes should be prepared to submit a deposit of \$2,800 to support their involvement in the event and perhaps more, following a more detailed review of expenses as we draw closer to the event. The CCA will coordinate all logistics for this project, including the purchase of flights and coordination of hotel and other amenities.
